PREFACE

The very existence of written records demands that they should be listed somewhere and thus their existence acknowledged. And when the Indian National Bibliography was started at the national level in 1957, perhaps this was the objective in view. The INB, with all its limitations, did a nice job for some years but unfortunately its publication had to be suspended. Now when it is revived again, it suffers from time-lag and comprehensiveness. Under the circumstances the documentation of the Indian books and monographs with maximum of coverage and minimum of time-lag is a necessity. And keeping this necessity in view, we have launched on this ambitious project.

THE INDIAN BOOKS 1971: AN ANNUAL BIBLIOGRAPHY is a comprehensive record of the Indian Books in English language published or reprinted in India during 1971. Besides including the Books and Monographs published by the Book Trade, it also includes the publications of the State and Central Governments and those issued by the learned Societies & Institutions. There are about 3,500 references arranged systematically in three separate sequences—author, title and subject. The Bibliography comprises of three parts. The first part consists of Author Index and Title Index each containing these references arranged alphabetically by their author and title respectively. The second part presents these entries arranged in classified subject order according to the Dewey Decimal Scheme of Classification. This part also includes Subject Index which facilitates the use of Subject Part. The last part lists the Publishers whose publications have been included in this Bibliography. The references have been prepared according to the Anglo-American Cataloguing Rules of 1967. The publications whose author is known are entered under its author whether it is a person or a corporate body, person under the surname and corporate body under its official name. Those for which authorship could not be established are entered under their title. Government publications are entered under the Government under whose authority they are issued and the Government is indicated by the territorial jurisdiction under its sway i.e. Central Government publications are entered under INDIA and those of State Government of Punjab, under PUNJAB. The publications of the Institutions and learned Societies are entered under their official names. Proceedings of the Seminars are entered under the official name of the Seminar to which they pertain. Well recognised national and international practices which are beign followed by the INSDOC & UNESCO for the compilation of their bibliographies have also been kept in view. Each entry accurately records the author, collaborator, title, place of publication, publisher, date of publication, pagination and the printed price of the publication which it refers to. Cross references under the name of collaborators have also been given in the Author Index to help those who approach the publication through its collaborator. Standard abbreviations, 'ed.' for 'editor or edition', 'tr.' for 'translator' etc. have also been used to save space. The publishers in the references have been indicated by their catch-word or important portion of their official names, i.e. the 'Asia Publishing House' is indicated by 'Asia' and the 'Today & Tomorrow's Printers & Publishers' by 'Today & Tomorrows'. We have preferred to give the names of the less known Publishers in full. We hope it is not difficult to connect the publishers given in the references with their complete entry available in the Publisher's Directory.

In the Author Index the form of the entry is as under:

PRASHER, RAM GOPAL
Indian library literature: an annotated
bibliography. New Delhi, Today & Tomorrows,
1971. 504p. Rs. 40.00

In the title Index the above entry is rendered as under:

Indian library literature; an annotated bibliography.
Prasher, Ram Gopal. New Delhi, Today & Tomorrows,
1971. 504p. Rs. 40.00

In the Subject Part, the entry available in the Author Index will be found under the Class Number 016.2

The alphabetization of the references is according to the A.L.A. Rules for Filing Catalogue Cards.

This Bibliography has been designed to cater for the needs of the Readers, Research Scholars, Librarians and Book Trade. It will lay before the Book Lovers a panorama of literary and scientific output of India and thereby motivating them to read even those documents which otherwise would have escaped their notice. This will be a reliable bibliographical tool for the professional Librarians for their book selection and building up their library collections. The Book Trade will find in this Bibliography a reference directory indicating the availability and the source of many Indian publications of 1971. Last but not the least, this Bibliography will supplement some of the important similar efforts already existing.

It will be completed in 3 vols.

REFERENCE CATALOGUE OF INDIAN BOOKS will be Index of Books in Print in English and on sale in India published by nearly 2500 publishers. Vol. I (Title Index) and Vol. II (Author Index) will give details as to Title, Author, Editor arranged in alphabetical order together with Revisers, Publishers, Price, as far as provided by the publisher, year of publication or year of latest edition, number of edition, number of pages, illustrations, series, binding etc. etc. Thousands of out-of-print titles appearing in similar bibliographical tools published before have been dropped, thousands of new price changes have been recorded and thousands of new titles added: making this edition as accurate and up-to-date as possible. All kinds of books are included: old, new, popular, scholarly, adult, text, hardbound, paperback, commercially published, and privately issued.

SUBJECT GUIDE will be a perfect source to help you enrich subject collections—to strengthen school to college curriculum and will help readers with special interests. This will be an unparalleled work where in readers can browse through with pleasure and profit. You will be surprised at how many titles they will come asking you for ! Here, in this volume, are thousands of titles from Reference Catalogue of Indian Books that can be classified under several hundred subject heading, with adequate cross references.

To the librarians, booksellers and publishers this work will enlarge the scope of their services and enable them to effect first class service all through the way. Put this unique bibliographical tool to work for you and see if does not pay handsomely in time, money and trouble saved.

REFERENCE CATALOGUE OF INDIAN BOOKS AND SUBJECT GUIDE will provide the answers to almost any question on any book in print in English in India such as: exact title of the book, author, publishers, current price, the several available editions, years of publications, of latest revision, other works by a given author, books in series, and much more.

Use them as a Book Buying Guide, check one of these references before ordering any book; if you are a bookseller and have received any order from your patron or library or reader or as librarian you have to order a book. In seconds you will find whether you are depending on the obsolete and incomplete information you often find in more selective listings—working data that waste your time and proliferate red tape. Have all your information centralised instead of ploughing through hundreds of individuals catalogues. See at a glance all available edition of the book you want listed side by side, and choose the best.

Use them to Move More Books in the library or bookshop. Use the Subject Guide especially to help you find more books for more readers by helping them, see in one place, every available title on their pet subjects. Use Author and Title Index volumes, to find other books by a currently best-selling author.

Use them as Directories. The title index lists the names and addresses of all known Indian Publishers, down to the very smallest. The SUBJECT GUIDE lists the names and addresses of every publisher whose books are included. ORDER Vol. 1, only as a trial. Find out for yourself just how valuable these famous book finders can be and how indispensable tools for any book organizations these are.
